whats a apple iphone used for

B

I think there may be a bit of a problem here!

It seems like we don't have any data to work with. The "Coin Data: {}" suggests that there is no data available to answer the query.

To answer your question, an Apple iPhone is a type of smartphone designed and marketed by Apple Inc. It is used for a wide range of purposes, including:

- Making phone calls and sending texts
- Browsing the internet and accessing various online services
- Running various apps, such as social media, games, and productivity tools
- Taking photos and videos
- Listening to music and watching videos
- Playing games
- And many other things!

But, I must say, without any data, I'm just making an educated guess. If you'd like to provide more context or data, I'd be happy to help answer your

what are their ranks

According to the data, the ranks of the two cryptocurrencies are:

- Tether: 3
- Tron: 11

what are its symbols

According to the provided data, the symbols are:

1. USDT (Tether)
2. TRX (TRON)

abtak baat kare hue crypto currencies ka mulya kya he

A Hindi query!

The query translates to: "What is the value of the crypto currencies that are being talked about?"

Based on the provided data, the values of the two crypto currencies mentioned are:

1. Tether (USDT): 1.0009104475280166 USD
2. Tron (TRX): 0.2030764245073666 USD

Please note that these values are subject to change and may not reflect the current market prices.
